In the effort to help families seek reimbursement for PACE Place, we are pleased to be working with Ginger Sayre from Help Hand Resource Center. Ginger has been working with previous PACE Place families to submit the fee for services to their insurance companies.

Ginger writes, "Helping Hand Resource Center has had the privilege of working with PACE Place over the past six months and I am proud to say we have had tremendous success assisting patients obtain reimbursement from their insurance companies. Over the last 15 years I have been able to master the complicated task of submitting insurance claims to insurance companies. As all of you know when it comes to special needs and alternative medicine the insurance companies will do everything in their power to deny claims."

Ginger charges a fee of 5% of the total invoice. She is able to file claims up to two years past the date of service.

Ginger continues, "The insurance specialists at Helping Hand have submitted six claims from PACE Place to four different insurance companies and have been successful in assisting patients receive some of the monies back in which they have had to pay up front for services. Out of the six we have submitted, all six have been reimbursed. The amount of the reimbursement varies from each insurance company and depends on the plan the patient has, but Helping Hand has successfully obtained reimbursements up to as much as 85% of the entire bill submitted. If we all pull together we can fight for what is right, REIMBURSEMENT. I personally would like to thank PACE Place for allowing me to assist families in need." *Ginger Sayre, Founder and Consultant.*

Many of these presentations are free. Please refer to our website at (www.paceplace.org/register) for additional information.

We hope to see you at one of these presentations. If you know of someone from any of these cities who might be interested in our information, we would be grateful that you pass this information along.

With your help, we can set up a free seminar for your community. If you are interested in finding us a free location and can help us advertise the event, please contact Kathi at kcalouri@paceplace.org.

Remember the referral program...

If you refer 2 new clients to PACE Place, the fee for your next visit will be \$3,000. You may schedule your reduced fee visit after your two referred families have booked their visits. The Referral Program is valid through December 2009.

We're on the Web!

Immersion Workshops in California, Oregon, and Minnesota.

What states are next?

We have conducted Immersion Workshops in CA, OR, & MN and are eager to host this event in a new city. Ten families participate in the Immersion Workshop which includes three weekend days of lectures and hands-on learning activities for parents only. Then, each family has a five hour, private consultation with their child. If you think the parents in your community would be interested in this format of service, please contact Kathi at kcalouri@paceplace.org.

What people are saying about the Immersion Workshops:

“The interactions with the PACE staff have made us firm believers in our children's potential. In witnessing the other parents uncover the same potential in their children after their PACE experience, and in sharing the experience with the other parents, we realized that the Immersion Workshop exponentially increased our belief in our children and in ourselves.”

-Allison & Tony, Workshop Participant & previous PACE Place family

“We participated in the Immersion Workshop this fall and were amazed at how four days changed our family. We were in awe of the ConnectorRx and how our son's attention issues disappeared while he was wearing it. He was in tune with our every step and we enjoyed each other like never before. Our time with Eric and Steve was highly emotional and deeply moving.”

-Jamie & Colleen, Workshop Participant

“The Pace Immersion Workshop equips parents and children with critical relationship building skills. Parents experience accessible strategies practically embedded into the natural flow of their family's daily life. This is a wonderful experience for any parent eager to develop reciprocally alongside their children.

-Andy Paulson, Ph.D., Fraser, Minneapolis, MN, Workshop Participant,
